

IDS 702 Midterm Corrections

YOUR NAME HERE

Remember to scan your original exam and include it in the same PDF with your corrections.

Question Number:

Which concept is this question testing? Give a specific lecture title (e.g., probability distributions, two-sample t-test, central limit theorem)

Where in the course materials was this concept covered? Be specific (e.g., “the Bayes Theorem Example in the Intro to Probability slides”)

What is the correct answer? Explain why this answer is correct.

Why is your answer incorrect?

Question Number:
